Variante coloristice

Profilele ALPROF sunt vopsite electrostatic cu vopsea pulbere pe instalații de ultimă generație de la producătorii de top din domeniu. Prealabil vopsirii, profilele noastre sunt supuse procesului de pregătire chimică a suprafeței care conferă elasticitate și durabilitate vopselei. Finisajele coloristice pe care compania noastră le oferă sunt practic nelimitate. Profilele noastre pot fi vopsite în orice culoare din catalogul RAL, dar și efect lemn prin sublicromie.
